PUBLIC WORKS DEPARTMENT.

Notification No. 897—6666, dated 27th December 1901.

I. To ensure the continuity of the supply of Electrical Power to the Gold Fields from the Cauvery Power Works during the hot weather, when it is apprehended that the quantity of water in the river might in years of short rainfall, fall below what is necessary to generate the full power, the Government hereby authorize the Superintendent of the Cauvery Power Scheme Works to shut off the hot weather supply to the Mahadevamantri or Holesal Channel from 1st March to 1st June of each year, (commencing from the 1st March 1902), should necessity for such a course arise, without any previous notice of the same being given to the raiyats concerned.

II. Knowing that the supply in the above channel might be cut off at any time during the summer months, viz., from 1st March to 1st June, without any previous notice, the raiyats in future will either cease to cultivate during the above period, or do so at their own risk, and the Government will not consider itself liable for any compensation.

III. The Superintendent, Revenue Survey, will be requested to reduce the present assessment on the lands in question to such an extent as to cover the period for which water may not be available.
